

International Expo and Suppliers Conference on Electronic Logistic Management Information System (eLMIS) for Health Commodities in the Philippines

World Trade Center, Pasay City, Metro Manila, Philippines (To be confirmed)

August 19–20, 2019

The Department of Health (DOH) of the Philippines, with support from its technical partners, is strengthening the procurement and supply chain management (PSCM) system for health commodities. One of the key objectives of DOH for PSCM strengthening is to deploy a state-of-the-art electronic logistic management information system (eLMIS) throughout the country to manage procurement and supply information, commodity flow, warehousing, dispensing, consumption and stock reporting, and data aggregation. The eLMIS is expected to be interoperable with other information systems, including health facility-level enterprise resource planning, electronic medical records, and track and trace bar codes.

As part of a market analysis, DOH has requested its technical partner to organize a two-day international Expo and Suppliers Conference in Manila August 19–20, 2019. Interested solution service providers and eLMIS developers will be given a chance to showcase and present their products and capacity at the Expo. Participants will also have opportunities to learn the requirements for taking part in the DOH bidding and network with local and international suppliers and solution providers.

Solution service providers and firms with experience in deploying eLMIS covering the following functional areas are invited to attend:

Procurement information	Visibility: ability to view the stock status across and within facilities
Forecasting	Early warning system
Requesting/ordering	Role-based access controls
Receiving	Electronic approvals
Distribution and inventory management	Global search
Dispatch	Notification alert of approval processes
Transport	Reports and dashboards
Dispensing	Data aggregation
Interoperability with GS1 track and trace barcode system	

Interested suppliers and solution service providers are requested to register their interest to take part in the Expo by filling in the form at: <https://forms.gle/tVCUFQdGKmSKnPjK7>

Details of the Event

Venue: World Trade Center, Pasay City, Metro Manila, Philippines (To be confirmed)

Tentative agenda

Day 1: August 19, 2019

Time	Activity	Presenter
