## Our Clients

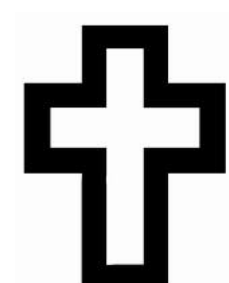

NATIONAL LEVEL MINISTRY DEPARTMENTS & DIVISIONS

COUNTY & DISTRICT HEALTH MANAGEMENT UNITS

NATIONAL CIVIL SOCIETY, FAITH-BASED AND NON GOVERNMENTAL ORGANIZATIONS

TRAINING INSTITUTIONS

FAITH-BASED HOSPITALS & HEALTH FACILITIES

REGULATORY BODIES AND PRIVATE SECTOR

## Approach

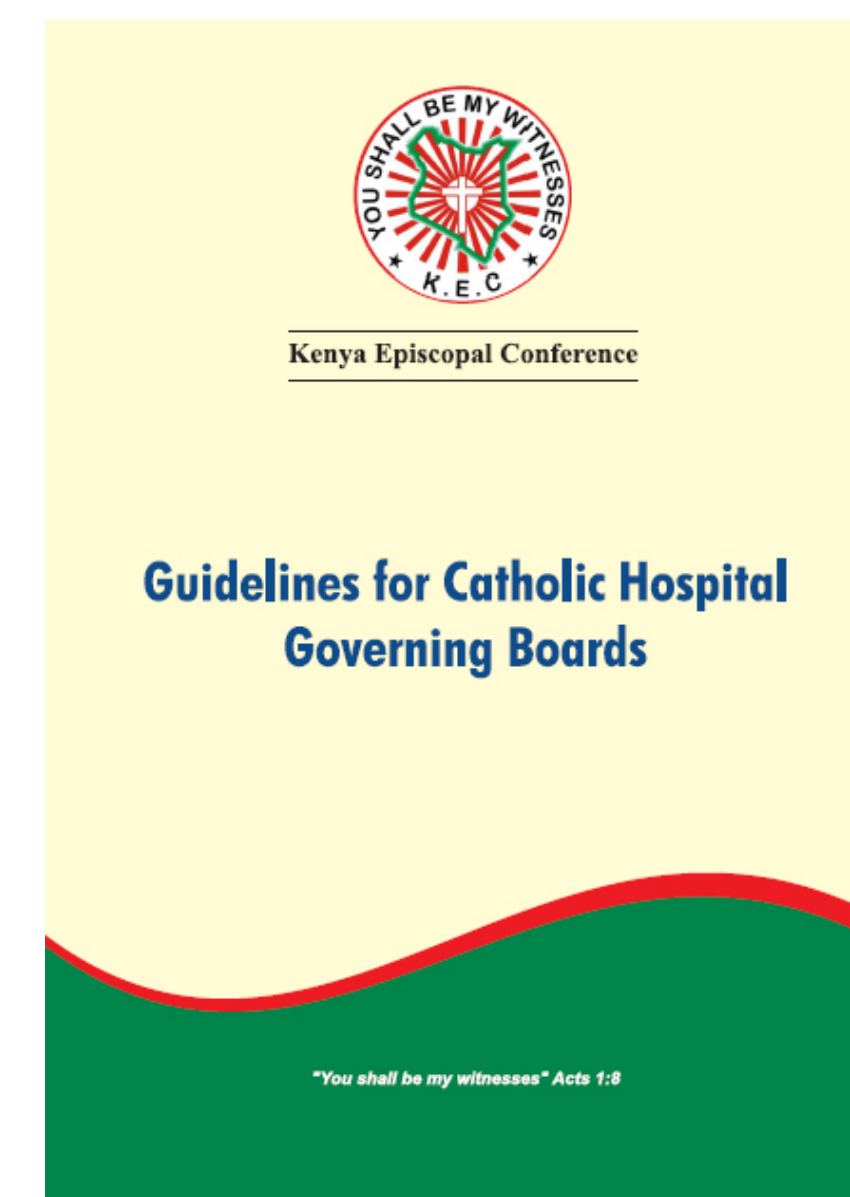

- Stakeholder engagement and coordination for joint planning and implementation and monitoring
- Strengthening institutional governance and leadership, finance management, strategic management, resource mobilization and communication systems
- Policy development and implementation
- Integration of Leadership and Management aspects into pre-service curricula of health training institutions
- Development of Leadership and Management in-service training courses for senior, middle and operational levels of the health management systems
- Participation in and strengthening of health sector inter-agency coordinating committees (ICCs)
- Building capacity of CSOs and affiliated partners to manage grants and providing grants to selected grantees
- Strengthening capacity of National Level CSOs to advocate for increased access to health and resource allocation

## Partners

MOH; 10 CSOs: KANCO, NOPE, IRCK, OMEGA Foundation, KeNAAM, HERAF, NEPHAK, WOFAK, ICL, Abantu; Training Institutions e.g. University of Nairobi, KMTC, Egerton and Strathmore University; NGO Board; Consortium Partners: Pact, Danya and ACA; and 58 consultancy firms

## Key Achievements

Improved governance of health facilities

- 207 (75%) hospital boards inducted on governance guidelines for public hospitals and 47 (86%) hospital boards inducted on governance guidelines for Catholic hospitals developed by MSH

- 113 participants trained in LeHHO program developed and run with SBS
- MSc in Health Systems Management course at UoN developed with School of Public Health

1000+ health managers across the country trained in the Leadership Development Program

5 county health sector and investment plans and 13 hospitals public and faith-based strategic plans developed strengthening the capacity of county management systems

## Key Achievements

Strengthened capacity of 10 National CSOs, FBOs;

- Governance and Finance policies developed for 10 National CSOs
- Strategy plans, resource mobilisation, communication strategies developed for 10 National CSOs
- Project management manuals and toolkits as well as monitoring and evaluation frameworks developed for CSOs and Affiliates. This has led to stronger, more efficient and accountable CSOs that achieve organisational objectives as well contribute to health outcomes in HIV/Aids programming and malaria prevention.
- Institutional strengthening standards developed to enhance quality capacity interventions for CSOs

Institutionalized health commodity coordination Technical Working Groups (TWG) at national and county MOH-levels.

- Functional 4 TWGs in all Public health Programs and 13 County commodity security TWGs in Nyanza, Western and Coast.
- Availability of quantification reports for all PHPs and priority counties
- Institutionalized functional MTCs in over 20 high volume hospitals
- Reduced stock-outs for HIV, Malaria, TB, RH/FP and laboratory commodities at national level

Supported MOH to improve coordination of donors and partners for national commodity security

Supported MOH in collaboration with WHO and others takeholders to develop:

- Kenya National Pharmaceutical Policy, 2012
- Clinical Treatment Guidelines for clinical governance service delivery charter. (183 senior pharmacists were trained as TOTs)

Grants Management

- Programmatic grants issued to 30 grass root organisations to undertake HIV/Aids service delivery focusing on OVC, prevention and care.
