# WOMEN, HIV & AIDS, AND NON-COMMUNICABLE DISEASES

*A Call to Action in Lower- and Middle-Income Countries*

Join us to examine what we know about addressing HIV-comorbidities; discuss the role of health systems in integrating NCD care into HIV care models; determine which lessons could be leveraged and applied beyond 2015 in the context of an emerging global burden of chronic NCDs; and discuss how primary health care models can be adapted in this context, while ensuring sustainability, cost-effectiveness, and efficiency in lower and middle-income countries.

**Moderator:**

Dr. Jonathan Quick, President and CEO of Management Sciences for Health

**Panelists:**

Bob Chapman, Director, US Government and Multilateral Global Health Advocacy, American Cancer Society

Dr. Peter Lamptey, Distinguished Scientist/President, Emeritus, FHI 360 and (Part time) Professor of Global Non-Communicable Diseases at London School of Hygiene and Tropical Medicine (LSHTM)

Sandy Thurman, Principal Deputy Coordinator for PEPFAR

L'Orangelis Thomas Negrón, HIV/AIDS Activist

Jordan Jarvis, Executive Director, Young Professionals Chronic Disease Network

Katie Reichert, Associate Project Director of Country Programs, Building Local Capacity Project, MSH South Africa

MONDAY, JULY 21

18:30–20:30

Plenary Room 3

Refreshments will be served
